What will best describe your living arrangement?

### Section 2 - Your financial details

When does your tax year end?

#### How to answer the questions in this section:

1. You will need to provide the total amount of income you expect to receive for that income type
2. The total amount should include all earnings covering the full tax year. For example, if you were made redundant part way through the year, you need to include earnings from 6 April 2016 to the date of your redundancy and any income you expect to receive from then up to 5 April 2017.
3. For pension payment questions, please only tell us the amount of the pension you expect to receive from the first month you receive it till the end of the tax year. You don't need to tell us the full annual amount.
4. If your answer is `0.00' to any question, this means you are telling us that you do not expect to receive any income from that particular income type
5. If you have described your living arrangements as 'living with a partner', you must include their income as well as your own
6. If your tax year ends on a date other than 5 April 2016, please provide us with information for your tax year that will end during the academic year 2016/17.
